FORESTRY TRUCK BODIES

Heavy-Duty Truck Bodies and Truck Tool Boxes for Tree Care Professionals

THE FIRST CHOICE IN:

- Chip Bodies
- Removable Roof Chip Bodies
- Truck Tool Boxes

A CUT ABOVE THE REST™

About ARBORTECH

Established in 1982, ARBORTECH is one of the leading national manufacturers of truck bodies for arborists. We were the first in the industry to use galvanized steel to enhance the durability and corrosion resistance of our forestry equipment. As a result, we've created a heavy-duty line of products, including chip bodies and our versatile removable roof chip bodies, which are built to outlast the competition.

Our forestry bodies also feature smooth body side panels, instead of the commonly used rib design. This provides a flat, sleek surface that is ideal for applying vehicle signage and graphics to enhance your company's professional image.

We have a strong history of catering to medium to large tree service fleets as well as independent arborists. Our sales/customer service representatives have more than 60 years of combined forestry industry experience and take great pride in responding to our customers with fast, personalized service.

Because we are a subsidiary of STAHL/Scott Fetzer Company, a top manufacturer of truck service bodies for a variety of industries, we have the experience and expertise to help you design and build the forestry body that's right for your unique application. Our manufacturing facility is also equipped to professionally install your forestry body on any medium-duty chassis.

Get the ARBORTECH Advantage with Heavy-Duty Forestry Truck Bodies

ARBORTECH is one of the leading manufacturers of forestry bodies for arborists. In addition to the industry's most durable, heavy-duty forestry truck bodies, ARBORTECH also offers:

- Personalized service, quick lead times and on-time delivery from our manufacturing facility in Ohio
- A variety of forestry body sizes, styles and options to meet your needs
- Smooth body panels to easily accommodate vehicle signage and graphics, provide a clean, sleek appearance, and enhance your company image
- Standard and removable roof chip bodies that can be shipped loose or installed on a new or existing chassis
- Professional installation on medium-duty truck chassis

3

YEAR WARRANTY

ARBORTECH protects your investment with a 3-year limited warranty.

STANDARD FEATURES on all our forestry bodies include:

- 3-Year Limited Warranty
- Rust-resistant, heavy-gauge galvanized steel construction, including a double-paneled galvanized steel tailgate and a galvanized floor with 3-inch structural cross members
- Smooth body panels to easily accommodate vehicle signage and graphics to maximize advertising exposure

L-Shaped Truck Tool Boxes Add Storage, Flexibility

ARBORTECH offers truck tool boxes in an L-shaped configuration to maximize storage space on our forestry bodies. This helps to ensure the tools you need are always easily accessible at every job site.

Standard reinforced door panels with durable 'T' locking latches

Our Standard Tool Box Features Include:

- Space-efficient, L-shaped design
- Stainless steel T handle latches
- 3-point locking system for optimum security
- Adjustable shelves and eight rope hooks
- Recessed doors with fully concealed stainless steel hinges
- Clip-on type automotive door seals

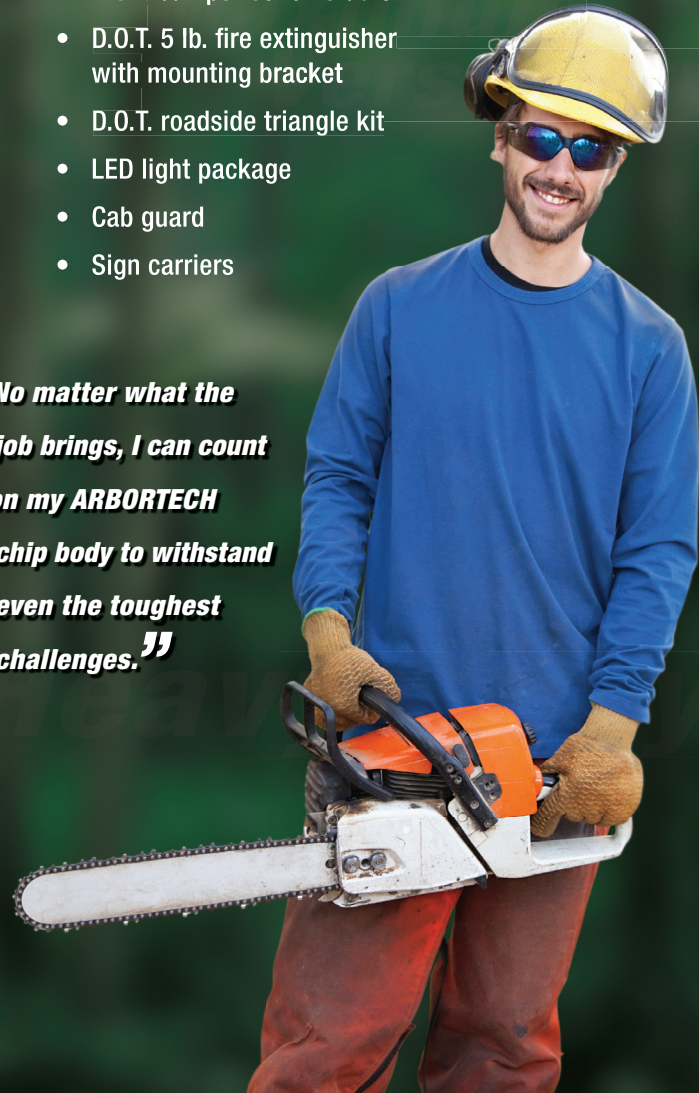

Optional Features

To help you customize the right forestry body for you, ARBORTECH offers an array of optional features including:

“No matter what the job brings, I can count on my ARBORTECH chip body to withstand even the toughest challenges.”

Our Chip Bodies Provide Years of Dependable Service

ARBORTECH chip bodies are ready to stand up to your toughest challenges with a 96-inch wide design for maximum payload capacity.

Our chip bodies are available in 10-, 11-, 12-, 14- and 16-foot lengths and offer superior quality, fit and finish.

Our smooth side panel chip bodies provide uninterrupted branding and graphic opportunities.

Ladder box with pole pruner shelf

NEW Tailgate Cam Latch

Standard hitch bar

- Ladder box with pole pruner shelf and rear lockable door
- Body cleaned with a high-temperature, high-pressure chemical wash to etch the steel before applying a high-grade automotive primer to ensure a durable finish
- Undercoating on underside of floor and toolboxes to enhance durability

- Coal tar epoxy bed liner for a rugged, corrosion-resistant interior finish
- White or black finish paint (Additional colors are optional)
- Fully enclosed lights and wiring harness that are weather- and debris-resistant

Our Removable Roof Chip Bodies Offer Maximum Versatility With One Investment

Chip Body

ARBORTECH'S removable roof chip body (RRB) is the most versatile forestry body available. Featuring removable roof, our RRB easily converts from a chip truck to a dump truck – providing a unique Two-In-One Advantage. Equipped with an ARBORTECH L-shaped tool box, our RRB provides ample room for tools and supplies.

Dump Body

Our Municipal – Urban Forestry Aerial Body Package Offers Agility in Congested Areas
