

SERVICE TRUCK SOLUTIONS MAXIMIZE UP-TIME

Mechanics Bodies, Service Cranes & Compressors
built for the modern work truck.

LIFETIME EXCELLENCE

ONE STRONG PARTNER FOR ALL YOUR NEEDS

Omaha Standard Palfinger is your one-stop solution to help you provide the most EFFICIENT, RELIABLE and INNOVATIVE service and care for your equipment.

At PALFINGER, we know that when your bottom line is affected by equipment down-time, you need a reliable service solution because your customers expect solid product performance, quick responses and a quality partner to trust. Our service trucks, equipped with PALFINGER Service Cranes, Compressors and many available options and accessories, along with our committed, nationwide distribution network, are a reliable solution to get your job done right.

Rely on PALFINGER equipment to get your team up and running quickly, while providing your customers with the best service experience possible.

This brochure is intended to give you the best overview of our Mechanics Bodies, Service Cranes and Compressors so that you can meet your customer’s service expectations with the right equipment.

INDUSTRIES

With the best equipment for the job, add a competitive edge to your business in a range of industries. Our service trucks are a reliable partner in: Construction, Roadway, Railway, Agriculture, Oil & Gas, Mining, Utilities and Municipalities.

MECHANICS BODIES

With true crane bodies and the most durable crane reinforced body in the industry, PAL Pro Mechanics Bodies are reliable partners for mobile heavy equipment service providers. Our true crane bodies are built specifically to handle the forces applied by the crane from the very start of their design. They feature less weight and stronger capacities, while the all A-60 galvanneal construction and E-coat protection ensure a long life on the job site.

SERVICE CRANES

With capacities up to 14,000 lbs., designed to meet or exceed all ASME and OSHA standards, PALFINGER Service Cranes offer wireless proportional control, an industry-leading Two-Block Damage Prevention System, and single-weld hexagonal boom designs.

COMPRESSORS

Built for the modern work truck, PALFINGER offers the lightest and most compact rotary screw air compressors available with 25-60 CFM of continuous air output, at 100% duty cycle.

PAL Pro 20

CRANE BODY - 20,000 ft. lbs.

PAL Pro 20 is our newest light-weight mechanics body designed to accommodate service cranes up to 20,000 ft. lbs. of lifting capacity. Designed for the work site, the PAL Pro 20 body is made to handle on and off-road use with a reinforced body, 2 piece doors with C-channel stiffeners, automotive bonding to eliminate welds and 316 marine grade stainless steel hinges. Rely on the right equipment for the job with a factory designed, built and tested mechanics body.

BUMPER OR WORK BENCH
YOUR PLACE TO WORK

Your choice of an 8" step bumper or 12" or 20" work bench bumper with 1/4" top plate, with outrigger packages to fit your choice of PALFINGER crane.

FULL LENGTH CHANNEL DRIP RAIL
PREVENTS WATER FROM DRIPPING

Covering the full length of the body, the channel drip rail channels water from the top of the body away from the compartment openings during use.

REINFORCED COMPARTMENT TOPS
FOR EASY MOUNTING

Easily mount compressors, welders and tool boxes. Plus, all raised compartments come with an engineered internal gusset to eliminate cracking in the corner of the compartments.

ALL 3-POINT LATCHING

For added security, each door is internally latched at 3 points – top, bottom and latch side – when engaged.

DOORS
SOLID CONSTRUCTION

Two-piece top hat design, with automotive bonding used instead of welding the doors together. 316 marine grade stainless steel hinges eliminate rust, along with bolt on assembly for easy alignment and replacement. Whale tail handles and 3 point locking latches standard provide the securest locking available.

PAL Pro 39

TRUE CRANE BODY - 39,000 ft. lbs.

Extending the PALFINGER range of mechanics bodies, PAL Pro 39 is our new light weight generation available in 9’ and 11’ standard configurations. In this development, we discovered new ways to reduce weight and become the lightest steel construction crane body in the industry. With new light-weight aluminum doors, PAL Pro 39 offers you more usable payload, combined with a stronger and lighter crane. Plus, more standard options are available to meet your service truck needs including headache rack, accessory mounting options, additional tail shelf options and more. PAL Pro 39 is manufactured with 12-gauge all A-60 galvanneal construction, a hybrid torsion box that eliminates frame and side pack deflection and the best rust protection in the industry.

INTERNAL STRUCTURAL SUPPORT

Internal engineered gussets are used in every raised compartment. They're not band aid gussets to “reduce cracking” caused by stress - they are designed to eliminate cracking from crane applications and off road-work site conditions.

PAL Pro 39-11CS

ALUMINUM DOORS
LIGHT-WEIGHT & CORROSION RESISTANT

Two-piece top hat design, with aluminum doors and hinges, automotive bonding used instead of welding the doors together to eliminate rust, along with bolt on assembly for easy alignment and replacement. Whale tail handles and 3 point locking latches standard.

WORK BENCH
BUILT FOR YOUR HARD WORK

A true mechanics work bench built to withstand tough work for years to come, featuring 12” or 21” work bench bumpers, standard class 5 receiver hitch, 1/4” steel top plate and thru compartment for additional storage.

INTERIOR COMPARTMENT COATING
FOR GREATER PROTECTION

A two-part, water based compound lines every interior compartment as standard to prevent rust from forming in the compartments, while providing superior protection against tools, chains and parts that can cause damage to the interior coatings.

PAL Pro 43

TRUE CRANE BODY - 43,000 ft. lbs.

PAL Pro 43 is our leading all-steel mechanics body built to handle our larger 8,000 lbs. service crane rated at 43,000 ft. lbs. lifting capacity. Like all true crane bodies from PALFINGER, PAL Pro 43 is manufactured with 12-gauge all A-60 galvaneal construction, a hybrid torsion box that eliminates frame and side pack deflection and the best rust protection in the industry.

WORK BENCH BUILT FOR YOUR HARD WORK

A true mechanics work bench built to withstand tough work for years to come, featuring 21" work bench bumpers, standard receiver hitch, standard steel top plate and thru compartment for additional storage.

NON-MARRING BOOM REST NEVER COMPROMISE QUALITY

Unlike other boom rests, the non-marring boom rest cradles the crane in a sling for transport, preventing rubbing that damages paint and encourages rust. Adjustable and fixed sizes are available to fit your specifications.

MECHANICS BODIES

PAL Pro 72

TRUE CRANE BODY - 72,000 ft. lbs.

When your payload requirements exceed a class 5 chassis, and your lifting requirements call for a 10,000 lbs. or 12,000 lbs. crane, PAL Pro 72 is the mechanics body for you. Available in 11' and 14' configurations, PAL Pro 72 is built for class 6 and 7 chassis' and handles cranes capacities up to 72,000 ft. lbs. With the best rust protection in the industry, all A-60 galvanneal construction and 316 marine grade stainless steel hinges, rely on the quality build of PAL Pro 72.

DOORS

PAL Pro 86

TRUE CRANE BODY - 86,000 ft. lbs.

With a crane capacity of 86,000 ft. lbs., PAL Pro 86 is the largest mechanics body in our range. A light weight, 14,000 lbs. crane body package, PAL Pro 86 is built with rear and single extending front crane side outriggers for 100% stability in all lifting zones. Like all of our PAL Pro Mechanics Bodies, it's also built with all A-60 galvaneal construction and 316 marine grade stainless steel hinges.

WORK BENCH BUILT FOR YOUR HARD WORK

OUR RANGE

Meeting or exceeding all ASME B30.5 and OSHA standards, PALFINGER Service Cranes feature Electric / Hydraulic and Hydraulic models up to 14,000 lbs. capacity. All crane models feature wireless proportional control, single weld hexagonal boom designs and offer the best rust protection in the industry, period. That's right - PALFINGER Service Cranes are the industry's only E-coated telescopic cranes!

ELECTRIC | HYDRAULIC:
PSC 3216 – 6025

Best suited for lower duty cycles, all Electric | Hydraulic Service Cranes are equipped with standard, single function proportionate control and offer the highest lifting capacity (ft. lbs), the best weight-to-lift ratio and the longest reach in the industry. Optional features including 90% acoustic overload warning, 3rd wrap limiting system and boom tip hooks are available to fit your application and service truck needs.

HYDRAULIC
PSC 4329 – 8629

A bigger crane range best suited for continuous duty applications and jobs in mining, construction and heavy equipment, all Hydraulic Service Cranes come equipped with simultaneous multi-function proportionate control as standard, superior weight-to-lift ratios and 29'2" of lifting reach. Each model features high-speed planetary winches at 60 ft./min line speeds, incorporating a 3rd wrap limiting system to prevent cable spool off that also doubles as a cable tensioner. Optional boom tip hooks, easy load-block stowing systems (ELS), and personnel baskets are available to fit your service truck application.

Innovative technology for surface coating is the foundation for durable and long-lasting protection. PALFINGER quality standard.

SERVICE CRANE FEATURES

PLANETARY WINCH

For speed and durability. The integrated Two Block Damage Prevention System eliminates the need for boom tip apparatus and cord reel. Complies with ANSI B30.5.

HORSE HEAD

Low profile design with no bail and limit switch to interfere with operation.

LOAD BLOCK STOWING BRACKET

Bracket and pads designed to keep load block from contacting the boom when stowed.

HEXAGONAL BOOMS

MADE BY PALFINGER - Low maintenance high tensile strength self-centering single weld boom sections powered by internal extension cylinders.

CYLINDERS

MADE BY PALFINGER - All cylinders are e-coated and use a 5 stage marine grade seal system.

CONTROL SYSTEM

Features a standard proportional wireless remote control unit, integrated E-stop button, warning horn and manual valve activation capability. Cranes are controlled with 12V DC power supply.

PROTECTIVE COVERS

Designed to protect your sensitive crane operating components against the weather and damage from exterior forces. Functional hinge design allows easy access to the receiver.

3RD WRAP LIMITING SYSTEM

Integrated system prevents wire rope spool off, ensuring three wraps remain on drum. Exceeds ASME B30.5. *Optional 3216-6025

PROPORTIONAL CONTROL

Through the control valve, proportional control is standard on all electric and hydraulic models.

BOOM MATERIAL

The boom is constructed of 100 grade tensile strength steel, robotically formed and welded out of one piece for superior material performance. Material is E-coated for optimal rust protection.

INDUSTRY STANDARDS MEETS OR EXCEEDS

ASME B30.5
OSHA 1910.28
EN 12999 H1,B6

TWO BLOCK DAMAGE PREVENTION SYSTEM

Two Block Damage Prevention System is integrated into winch mounting platform eliminating the need for boom tip apparatus and cord reel. Complies with ASME B30.5

LOW MAINTENANCE

There is no need to grease the booms because our lifetime Nylatron wear pads allow the booms to extend and retract without damaging the E-coat protection.

INDUSTRY LEADING WARRANTY

2 years on all components,
3 year warranty on structural components.

CRANE BODY ACCESSORIES

**THREADED WELDMENT OPTIONS
TO PROTECT YOUR BODY**

Boom Rest, Welder, Compressor, EnPak, Air-n-Arc, and AirPak mounts are available from the factory to eliminate the need to drill holes in the body, while protecting your E-coated body.

**COMPRESSORS
SMALL AND LIGHT-WEIGHT**

Offering 100% duty cycle, PALFINGER rotary screw air compressors are compact, light-weight and available in 45 CFM and 60 CFM.

**SHELVING OPTIONS
FLEXIBLE LAYOUTS**

Choose your own compartment layouts with our available shelves and divider trays.

**BOOM REST OPTIONS
NEVER COMPROMISE QUALITY**

Stow your crane without damaging the paint during transport with our one fixed and two adjustable non-marring boom rest options.

**BOLT ON HANDRAIL OPTION
FOR ADDED SAFETY**

Ergonomically designed handrail option, with a stable surface to grip, for your added security against tripping or slipping hazards.

**DRAWER UNIT OPTIONS
AVAILABLE IN ALUMINUM**

Tool drawer units are available in a wide array of sizes to fit your specific needs.

**BOOK RACK OPTIONS
FOR IMPORTANT DOCUMENTS**

A standard option for storing your equipment books and manuals, so important documents are always on-hand.

**OUTRIGGERS
ADDED STABILITY**

Support your lifting application needs with manual and hydraulic outrigger options.

**HEADACHE RACK
SAVES COSTLY REPAIRS**

This light bar bracket with a punched screen prevents cargo area contents from making contact with the rear window of the cab - saving you from costly rear window repairs and cleanup.

SERVICE CRANE ACCESSORIES

**ACOUSTIC 90% LOAD WARNING
FOR INCREASED SAFETY**

An audible warning communicates to the operator that his service crane is working at 90% load capacity and will soon reach maximum capacity. Available for PSC 3216 – 6025.

**PROTECTIVE CASE WITH BELT LOOP
KEEPS REMOTE AT YOUR SIDE**

Nylon case with clear plastic cover protects your remote control from harsh weather elements, while the belt loop allows you to attach the remote to your work belt for added convenience on the job.

**PERSONNEL BASKETS
COMPACT AND READY FOR USE**

Suitable for PALFINGER Service Cranes with 5,000 lbs. capacity and above, our Personnel Basket doesn't take up valuable load space storage because it's the only collapsible basket in the market.

**FULLY PROPORTIONAL CONTROL VALVE
MULTIPLE FUNCTIONS AT ONCE**

Operators can perform multiple functions at once with precision, speed and ultimate control thanks to the Fully Proportional Control Valve. Available for PSC 6025.

**SILICON COVER FOR REMOTE
KEEPS REMOTE CLEAN**

Flexible silicon cover helps keep dust, dirt, and grime off of your remote control – so you can focus on controlling your service crane and not cleaning the remote.

**3RD WRAP LIMITER
FOR FRICTION LOAD HOLDING**

Available for PSC 3216 - 6025, 3rd wrap limiters keep 3 wraps of cable around the drum for friction load holding. Exceeds ANSI/ASME requirements.

**ELS SYSTEM
EASY LOWERING OF LOAD BLOCK**

Our ELS System lowers the load block an additional 23" for removal and storage, making it easier to load and unload – especially on larger trucks.

**REMOTE STORAGE BRACKET
SECURELY STOWS REMOTE**

Stow the remote control using the metal storage bracket and mount it in the cab or the crane compartment. Thanks to the remote magnet, the remote will be held securely in place during transport.

**BOOM TIP HOOK
1.5 - 3.5 TON LOAD HOOKS**

PALFINGER exclusive boom tip hooks up to 3.5 ton capacity. Horsehead has threaded weldment for mounting.

SERVICE CRANE ACCESSORY

PERSONNEL BASKET

Design highlights

An industry first developed by PALFINGER, our Personnel Basket is an innovative and compact aerial lift solution designed for PALFINGER Service Cranes. Following a quick and easy set-up process, simply attach to the crane using the Quick Connect crane adaptor and you're ready to work up to 37'. When the job is done, our Personnel Basket is the only one designed to collapse and store into the compact storage box mounted onto the body for transport. Thanks to its low weight, the Personnel Basket requires only a 5,000 lbs. service crane and class 4 truck.

PERSONNEL BASKET*
MAXIMUM COST EFFECTIVENESS
THANKS TO LOW DEAD WEIGHT

The PALFINGER Personnel Basket is built with high strength steel to minimize its weight. Personnel Basket Weight: 280 lbs. Complete Installation (incl. Boxes): 400 lbs.

ATTACHABLE TOOL BOXES
EQUIPMENT OPTIMALLY STOWED AWAY

Easily attach up to two optionally available tool boxes to safely store tools and parts while you work in the personnel basket.

ANTI-SLIP SURFACE
SAFE AT ALL TIMES

The foldable patent pending platform features an anti-slip surface to ensure safe standing at all times.

STORAGE BOXES*
COMPACT AND RESOURCEFUL STORAGE

The personnel basket is designed to collapse into a compact storage box to be mounted on the work truck body or platform.

EMERGENCY LOWERING FUNCTION
SAFE SOLUTIONS FOR EVERY SITUATION

In the event of an electrical failure, the emergency equipment allows the personnel basket to lower the operator safely.

SPINE LOCKS*
SAFE AND USER FRIENDLY

To ensure safe and user-friendly set up, each section of the telescopic spine is equipped with a lock to ensure a defined position at all times.

QUICK-CONNECT MECHANISM*
QUICKLY ATTACH THE PERSONNEL BASKET TO THE CRANE

A triple lock mechanism mounted to the crane boom allows quick lock and unlocking of the personnel basket to the crane. The quick connect can remain permanently mounted as it is designed not to interfere with normal crane operation.

HYDRAULIC DAMPENING | LOCKING SYSTEM*
STABILIZES THE PLATFORM
IN EVERY SITUATION

The hydraulic dampening/locking cylinder stabilizes the personnel basket while it is in motion. Once the working position is reached, the basket can be locked in place.

INDUSTRY STANDARDS
MEETS OR EXCEEDS

ANSI A92.5
OSHA 1910
OSHA 1926

PERSONNEL PROTECTION AT THE BASKET
ENSURES SAFE OPERATIONS

To ensure your protection, the quick-connect features a 2.5T latching point to attach the safety harness.

COMPACT & POWERFUL

COMPRESSORS

The PALFINGER PRC 45V and 60V compressor models are hydraulic driven deck mounted rotary screw air compressors built for the modern work truck. When space is at a premium and weight savings is a priority, rely on the smallest and lightest hydraulic deck mount compressor available. Our compressor systems are designed to work in the most extreme climate conditions, with built-in protection to operate anywhere you work. With two models that provide a CFM range of 25-60 CFM of continuous air output, at 100% duty cycle, you can expect PALFINGER compressors to handle your workload.

EASY TO OPERATE

How easy? Simply press the on/off button on the digital display box. The control system will take care of the rest! The display will show the system status and if something isn't right, it will tell you. When you stop using air for any reason, the compressor goes into Standby Mode. This means essentially it is off, but ready to start up automatically the moment you need air*.

*Assuming proper safety conditions are in place: truck is parked safely and PTO engaged.

INTEGRATED HYDRAULIC/COMPRESSOR OIL COOLER

12V activated fan, turns on/off automatically to adapt to hydraulic and compressor oil temperature.

DIGITAL CONTROL MODULE

Controls system operation and stored settings.

ROTARY SCREW AIR COMPRESSOR

25-60 CFM 100% duty cycle rotary screw compressor, directly driven off hydraulic motor.

AIR FILTER

DIGITAL DISPLAY BOX

LCD for controls, observing system status and adjusting parameters, mounts where needed on truck.

HYDRAULIC MANIFOLD

Controls ow of hydraulic oil through the system.

AIR DISCHARGE

COALESCING FILTER

AIR/OIL SEPARATOR TANK

Separates compressor oil from compressed air.

COLD CLIMATE MANIFOLD

AIR RECEIVER TANK

E COATING - ENVIRONMENTALLY FRIENDLY RUST PROTECTION

Nearly all Omaha Standard Palfinger products receive complete electrocoat (E-coat) prime paint coverage. Unlike alternative equipment, our components are E-coated before installation to ensure total paint coverage - even in the most critical areas. You can expect the best rust protection in the industry - period.

12 STEP PAINT PROCESS PROVIDES THE ULTIMATE RUST RESISTANCE & IS ENVIRONMENTALLY FRIENDLY

Components are cleaned and pretreated with a phosphate conversion coating to prepare the product for electrocoating. When dipped into a paint bath, direct current is applied between the product and a counter electrode. The electric field attracts paint to the product and deposits it onto the product.

Components are removed from the bath and rinsed to reclaim any unset paint solids. Our E-coat is environmentally-friendly, recyclable, and efficient. The paint is applied to a precise thickness over the entire product, so no paint is wasted. Next, products are transferred to the bake oven and completely cured at a temperature of 375°.

Our products are durable and corrosion resistant thanks to the complete coverage of the E-coat. "Green" initiatives are involved in all activities of the PALFINGER North America Group, including manufacturing, procurement, new product development.

PUT IT ALL TOGETHER

ONE PACKAGE

A RELIABLE PARTNER – PALFINGER IS YOUR ONE-STOP SOLUTION
Rely on Omaha Standard Palfinger to provide the right equipment for your job. You can expect a competitive service truck solution when you put our Mechanic Bodies, Service Cranes and Compressors together. Offering a range of standard configurations, and non-standard configurations upon request, we are committed to your solution.

WE STOCK COMPLETED WORK READY PACKAGES, WITH RENTAL OPTIONS AVAILABLE AS WELL. CONTACT YOUR DISTRIBUTOR TODAY.

At PALFINGER, we recognize the high value of after the sale service and support. That's why we have dedicated distribution partners conveniently located across North America. Our ever-expanding distribution network is always there for you to serve your product requirements.

With European technology and North American manufacturing, our passion for innovation, reliability and efficiency is your benefit on the job.
