■ *RC's American-made truck storage systems and accessories combine versatility and value to help you handle tough jobs and problematic storage needs...*

WHY CHOOSE **RC**

We live in exciting times. Today, our country faces the greatest economic challenge we have seen in the last 50 years. Our politicians are not going to lead us out of our current situation. The best we can hope for is that our government will get out of our way. The individuals responsible for solving our economic problems are your hard working American neighbors and colleagues. We, the working American families, need to lace up our boots and get to work doing what Americans do best: innovating and manufacturing the finest products in the world.

At RC Industries we are passionate about supporting American families. We are dedicated to innovating, designing and manufacturing the finest storage systems in the world. When choosing a toolbox for your work truck, why not choose to support your fellow Americans and choose RC.

**WE CAN BUILD
A CUSTOM STORAGE
SOLUTION FOR YOU.**

How do you use your toolbox?
We can design a solution for
every player in the game.

CUSTOM FABRICATIONS

RC INDUSTRIES is a multi-dimensional metal product company. We employ American craftsmanship, top of the line materials and cutting edge design to provide our customer with the best possible, high-performance metal products.

We are committed to building lasting relationships with our customers and vendors and creating a community that believes in our product and company as much as we do.

CUSTOM ASSEMBLY

RC does fabricate various metal materials but we also powder coat and add pre-assembly hardware to fit any requirements.

TRUCK BUMPERS

RC supplies standard or custom designed bumpers to OEM and aftermarket accounts.

Engineering assistance is available to our customers in designing everything from simple straight bumpers to complex assemblies with swing down steps.

CUSTOM ENCLOSURES

RC offers various punched louvers and other ventilation methods for enclosures and boxes. RC engineers, fabricates and delivers to the most precise specifications for the most demanding companies. Contact us today to discuss your requirements.

REMOTE COLLECTION DROP-BOXES

Custom designed Drop-Boxes are designed and engineered to solve the challenges unique to your business model. Call us for your custom designed solution.

CUSTOM STORAGE BOXES

No matter what your work or leisure time requirements, we can manufacture a storage system to custom fit *your* vehicle – step vans, service vans, van bodies, dump bodies, stake bodies, farm bodies, tractor trailers, farm tractors, landscape trailers, utility trailers, wrecker bodies, car hauling bodies, service bodies, custom bodies ...anybody's body.

IMAGINATION IS YOUR ONLY LIMITATION!
